Herbal Teas inspired by the wisdom of Ayurveda

DelighTeas® is inspired by the healing wisdom Ayurveda – an ancient science and medicine of the future.

Known as the “Science of Life”, Ayurveda is a holistic healing system that was developed in India more than 5,000 years ago to naturally address all layers of the mind, body & soul.

Ayurveda believes that strong digestion is the key for overall good health. Teas are the traditional method of delivering the medicinal effects of herbs and spices to your body’s tissues.

- We are so proud of our ingredients & choose to make them large and easy to read on the back of our packaging. Our ingredients list is short, clean, and clear.
- Most brands in the market use Invert cane syrup and Cane sugar – we use Organic Coconut sugar and Organic Maple syrup – both healthier and lower in Glycemic index.
